Why K Laser?

K Laser Group is listed company since 1999 and we provide global networking support. We are the member of International Hologram manufacture (IHMA) since 2002 and now are the largest publicly traded holographic company in terms of market share.

What kinds of effects are included?

Besides, traditional 1D, 2D/3D, 2 channel, Virtual Depth....., K Laser also provides advanced technology effect such as High Resolution Square Color Dots, Kinematic Guilloche, True Color and Nano-text ...
No additional cost for extra effect!!

Member of IHMA- Integrity, Reliability, Security

As IHMA member, we're rigorously vetted before joining and adhere to a strict Code of Practice governing standards, business ethics, customer service, respect for and protection of customers' and competitors' intellectual property.

Training Course and Certification Letter Provided After Sales Service!

We provide training course after sales service to help our customer understand labels' anti counterfeit and ensure your label's quality are complied with IHMA standard.
